## Experience

- Mar 2019 – Today Paris

 Senior developer  
Directskills

Developed modules for time entry and bulk import of worked hours. Specialized in the application's calculation and payroll modules, with a focus on managing large data processing and performance optimization.

Utilized React, Remix, Node, GraphQL, Jest, Fastify, Docker, MsSQL etc.
- Dec 2023 – Feb 2024 Sarcelles

 Senior developer  
JONATHAN TRANSPORT

Developed the company's CRM using NextJS and implemented an automated scheduling module with AWS Step Functions.

Utilized Prisma, MongoDB, and DynamoDB for database management. Deployed the CRM through Vercel and the scheduling module via AWS CDK.
- May 2019 – Mar 2020 Saint-Brice sous Fôret

 Developer web and mobile  
Jewtrips (Founder)

Developed web and mobile application for trips - Airbnb like.

Utilized React, React-Native, GraphQL, Express, MongoDB, AWS S3 and AWS EC2.
- Jan 2019 – Apr 2019 Sarcelles

 Developer mobile  
JONATHAN TRANSPORT

Designed and developed a mobile application for taxi fleet management using React Native.
- Nov 2017 – Feb 2019 Issy-les-Moulineaux

 Developer web and mobile  
VIDAL Group

Developed an e-learning web platform for a major client in the healthcare sector. Designed and developed a cross-platform mobile application.

Utilized PHP, Javascript, Nativescript and Docker.
- Nov 2014 – Nov 2017 Paris

 Developer mobile  
MMCréation

Developer and integrator skilled in HTML5, CSS3, PHP, JS, and React. Enhanced and provided support for Hapi, a CMS tailored to the hospitality industry. Created the Hotel Push Marketing solution, a retargeting widget specialized for the hospitality sector. Developed a decision-support dashboard for the HPM solution. Built various hotel websites on a custom framework.
